

# Brow styling pre & post care

## **PRE CARE**

### **12 months before your appointment**

Take your final Roaccutane, Retina, AHA, Glycolic, Doxycyclineskin or similar medication.

### **6 weeks before your appointment**

Refrain from getting sunburn, windburn or a chemical burn (facial).

### **7 - 10 days before your appointment**

- Stop using Retinol skin care.
- Do not receive cosmetic injectable treatment (Botox and filler).

### **5 days before your appointment**

Stop using Glycolic Acid and Lactic Acid.

## **POST CARE**

If you received a hybrid brow dye in your brow styling appointment, refrain from getting them wet for the next 24 hours and refrain from scrubbing the area to help the stain on the skin last as long as possible.

**If you have any questions or concerns please do not hesitate to get in touch.**
